CONNEXIONS PROJECT FIRST WORKSHOP!!

 ONLINE

 19th OF OCTOBER, 2021

The CONNEXIONS project would like to **invite** you in its **1st workshop** of a series to **explore the project as well as its tools** via demonstrations and presentations. The workshop will be focused on the **3rd Pilot Use Case** regarding **“Crime investigation and training through 3D reconstruction”**.

For more information and the full agenda of the event visit our [website](#).

REGISTER HERE: <https://ec.europa.eu/eusurvey/runner/CONNEXIONSWorkshop2021>

EVENT PROGRAM

- ⇒ **Demonstration of CONNEXIONS' 3D Reconstruction and VR Application**
Incl. Introductory Remarks on the Added Value of Reconstructing and Re-Entering Crime Scenes for LEAs/Workshop Demo Scenario
- ⇒ **Panel Discussion on the Challenges of Using and Advancing Tools to Reconstruct and Re-Enter Crime Scenes**
- ⇒ **Sister Project Presentations**

The CONNEXIONS project

CONNEXIONS aims to **develop and demonstrate next-generation detection, prediction, prevention, and investigation services**. These services will be based on **multidimensional** integration and **correlation** of heterogeneous multimodal data, and **delivery of pertinent information** to various stakeholders in an **interactive manner** tailored to their needs, through **augmented and virtual reality** environments.

The CONNEXIONS solution encompasses the entire lifecycle of law enforcement operations including:

- **Pre-occurrence crime prediction and prevention**
- **During-occurrence LEA operations**
- **Post-occurrence investigation, and crime-scene simulation and 3D reconstruction.**

Follow CONNEXIONS

This project has received funding from the European Union's Horizon 2020 research and innovation program under grant agreement No 786731. | <https://www.connexions-project.eu/>
